## Technical Agricultural Advance Shown In Motion Pictures By John Deere At Capitol Theatre

Every Seat Taken By Interested Audience, Who Were Treated To A Most Educational Program—M. J. Swallow, Blockman In The Peace River, Extended Hearty Welcome—Various John Deere Types Of Machinery, Which Included Two-Cylinder Tractors, Seen In Operation—Prizes Drawn By J. S. Moore And Miss Margaret Stephenson.

Every seat was taken in the new Capitol Theatre on Saturday afternoon by a keenly interested audience who came to hear and see the offering of John Deere which showed in motion pictures the technical advance made by the company in the manufacture of agricultural implements.

Just before the picture was flashed on the screen M. J. Swallow, blockman for the company in the Peace River, extended a hearty welcome on the part of the company and N. H. Swallow, dealer at Grande Prairie, showed in the pictures to be shown were of farm machinery in a wide range, adaptable not just particularly to this country but for everywhere.

Mr. Swallow stated that the various John Deere manufacturing plants at Waterloo, Iowa, covered 90 acres and the tractor plant had a capacity of from 300 to 500 tractors a day.

He further stated that the company had other plants at Moline, Illinois, and Welland, Ontario.

The tractor plant, he observed, is one of the largest on the American continent.

A picture of the plants was the opener to the program.

"What Is New In Farm Machinery?" was the title to the next picture, which included the new type of Hammer Mill and the damming Later, a machine used in the dry areas to preserve moisture.

Mr. Swallow explained that a number of this type of machine were used in southern Alberta and southern Saskatchewan last year but the actual results will not be known until next year.

"School Days" was the title of the next picture, which showed a two-cylinder tractor service, school which is held every year for the Lane-fit of dealers and dealers' service men.

Here was demonstrated the simplicity of servicing the John Deere two-cylinder tractor.

Another picture gave a demonstration of the work which the 12 different types of two-cylinder tractors were adapted.

The title of this picture was "Champions on Parade."

Owing to an accident to the sound part of the machine, Mr. Swallow regretted that the feature picture, "Friendly Valley," which was shown through the generosity of Mr. Donald a couple of reels were substituted to sound off the most interesting and educational program.

Registration cards were handed round during and after the show. A draw was later made. Two prizes were given, one for the ladies and one for

## Further Support Is Pledged Monkman Pass Highway

(By F. I. Correspondent)

TUPPER CREEK, Feb. 28.—That the Tupper Creek Farmers' Institute is supporting the Monkman Pass highway project is indicated in the following resolution, passed at a meeting held here:

"Resolved, whereas we find the Monkman Pass proposed highway by way of Dawson Creek, Arras and Fellers Heights to Hensard is about 150 miles, which makes the

highway 250 miles closer to Vancouver than any other route, and makes Fort St. John 250 miles closer to Vancouver than the proposed Tupper Creek highway, we

make Edmont 250 miles nearer than any other road and will eventually be a trans-Canada highway on account of low grade and shorter mileage.

"Also in consultation with various sections of the province, and in favor of the inland route, instead of the one further west, on

"Therefore we, the members of the Tupper Creek Farmers' Institute, hereby pledge our support in any way possible to help get the road built."

"A copy of this resolution to be sent to Central and the Block News and The Northern Tribune."

## Town of Wembley Take Keen Interest In M. P. H. Assn.

WEMBLEY, Mar. 8.—Business was brought right up to date at an executive meeting of the Monkman Pass Highway Association held here this afternoon in connection with the annual meeting of the association. A fine turnout of the executive were at the meeting. Routine business was discussed and campaign plans reviewed. Herman Treble opened the meeting, and turned the chair over to the association.

A large attendance at the dance in support of the association, and the Vagabond Orchestra, provided the music.

Keen interest was evidenced in the Highway Association's progress.

## Ideal Winter For Bush Work Says Mark Kitchen

Several men arrived in Grande Prairie Monday from Frank Donald's camp at Wembley, where they had been working behind them for another year.

Of the twenty-seven men at the camp, the following were from Grande Prairie: Mark Kitchen, foreman; R. Carmichael; Stan Boucher, the cook; Mike McEne, Jim Hong, Fred Worth, F. Tract, Mr. Martinson and John Quinlan.

"It was a beautiful winter for bush work," said Mark Kitchen. "The boys were all pleased to go to the bush and pleased to come out."

There might have been more snow at the last though, he remarked.

## Man Broke Hip In Fall On Ice

Painful injuries were suffered by A. Stenberg of Hythe Friday when he slipped on ice and landed on a broken hip. Mr. Stenberg farms about 400 acres northeast of Hythe. When he fell, D. O. Hanson, merchant at Valhalla, was called by phone and by car he brought the injured man to the Grande Prairie, where he is resting in the Municipal Hospital.

## Cock Pheasant Seen On Saturday

Prost and north winds hold no fear for one pheasant hunter who stepped out Saturday morning to show the cock pheasant on the road. The bird looked to be healthy and in fine condition, but, said, seeming none the worse for the winter's cold.

## Putters Return From Motor Trip To California

Had Pleasure Of Meeting May West In Person—Attended Electrical Construction Convention At Long Beach And Visited The Boulevard Theatre.

Mr. and Mrs. Joe Putters and little son arrived home on Friday night from a motor trip to California.

Seen by The Tribune reporter, Mr. Putters said that the trip was most enjoyable trip and he comes back ready to "hit the ball" with renewed energy.

Among the many pleasant experiences was meeting May West in person, who Joe described as a charming lady with a soft musical voice.

The meeting occurred after a show at a Los Angeles theatre.

Mr. Putters attended the electrical construction convention at Long Beach, where moving pictures were taken of the delegates and latest electrical equipment. Hollywood was also visited. They also visited Mrs. Putters' parents at Long Beach, whom she has known since childhood.

"One of the most interesting incidents on the trip was a visit to the Boulevard Theatre at Los Angeles, the wonders of the world," remarked Mr. Putters, who went on to say that when he returned to the province, he will put bushes and orange trees in bloom.

Que in the United States is in the Peace River, observed Joe, who added that he did not use chains until he got into the Peace River coming back.

While there was considerable unemployment in California, those who were working in the trades received good wages. In the electrical business, Joe mentioned, from a dollar to a dollar and a quarter was being paid.

## Alberta Command Of Legion To Go On The Air

Comrade Alex. Walker, Calgary, provincial president of the Alberta Command of the Canadian Legion, will be one of the principal speakers in a series of radio broadcasts sponsored by the organization.

He will be heard on station CFCN, Calgary, the first of which will be on Friday, March 11, from 10:15 to 10:30 p.m.

According to information received, this broadcast follows immediately after the Peace River broadcast.

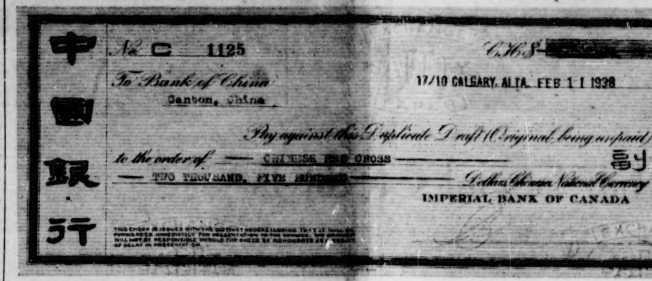

Succeeding programs will be heard on alternate Fridays at the same hour.

The broadcasts will be devoted to the relative to war veterans' affairs.

Ex-service men who have not joined the Legion will be urged to join the organization.

The provincial president is well-known as an ardent worker for the welfare of returned men.

## AND SEIT STROCKEN CHINESE

DUPLICATE OF CHEQUE SENT TO CHINA BY CHINESE RED CROSS COMMITTEE OF THE PEACE RIVER

A few months ago, fired by a desire to help their homeland, recent Chinese of the Peace River country organized themselves into a Red Cross Committee for the purpose of collecting money for their suffering people in the war zones of China.

Not only did each give to the limit and is still doing so, but they asked the members of other races to assist, and the large cheque (pictured above), which they were able to send to the Chinese Red Cross Society in their homeland indicates the support which the cause for humanity received.

The Chinese here are prepared for a long war, and want it distinctly understood that they are not through giving themselves and make a further appeal for financial support from others to help the millions of war sufferers in China.

## Expected That Objective of 100 Members of G. P. Board of Trade Will Be Finally Reached

Report Of J. Jaeger, Chairman Of Membership Committee, Reveals—First Month Luncheon To Be Held On March 11—Held Off Electing Officers—Explained That Election Was According To Constitution—Free Pick-Up And Delivery May Be Granted By Railway—Much Business Before The Meeting.

That there were 95 paid-up members of the Grande Prairie Board of Trade and it was expected that the objective of 100 members was not far off, was revealed in the report submitted by J. Jaeger, chairman of the membership committee, at the second meeting of the new executive, held in the council chamber on Thursday night last week.

Later Mr. Jaeger told of certain objections which the committee encountered when canvassing for new members of the board, the chief of which was the method of electing officers.

Ex-President L. C. Porteous, in speaking to the criticism, stated that the officers were elected according to the constitution, which required that those who expressed their willingness to stand for nomination should sign an acceptance card. Many such cards were spread around and only the necessary number were signed.

President O. B. Harris, who was in the chair observed that the whole question was taken up at the next annual meeting.

Mr. Jaeger said that he was merely giving his report and was not offering any criticism on last year's officers.

A number of thanks were tendered the membership committee for the splendid progress made.

## Premier Gave Evidence In School Trial

Says J. H. Sissons, Who Returned From The Capital City On Saturday—Deputy Minister Of Education G. F. McNally, Also Gave Evidence—Judgment Is Reserved By His Lordship, Mr. Justice Howson.

J. H. Sissons, who attended the hearing of the trial of the action on testing the validity of the establishment of the Grande Prairie School Division, held in court at the home on Saturday afternoon.

Interviewed by The Tribune reporter in the case, Mr. Sissons stated that the trial started Monday afternoon and was concluded on Friday afternoon.

A number of witnesses, including Premier Aberhart and Deputy Minister of Education G. F. McNally, and other government officials were called for the defence.

His Lordship, Mr. Justice Howson, reserved his decision.

## Three Alberta Bills Are Ruled Unconstitutional

EDMONTON, Mar. 4.—The Supreme Court of Canada ruled that the three Alberta government bills which were appealed to the court are ultra vires. The court not only ruled unconstitutional Alberta bills dealing with judicial regulations, bank taxes and control of newspapers, but Chief Justice Lyman Duff ruled against the Social Credit Act, the cornerstone of the Aberhart government's financial strategy, in a series of judgments.

Chief Justice Duff said that the Social Credit Act was unconstitutional and that the Credit of Alberta Regulation Act, which was held to be unconstitutional, was also unconstitutional.

Held to be unconstitutional the Act to Insure the Publication of Accurate News and Information.

Ruled that the Dominion had power to disallow provincial enactments which were in violation of the constitution.

Chief Justice Duff said that the Dominion had power to reserve its assent from provincial legislation, subject only to any instructions from the Governor-General.

Every subject the Supreme Court ruled against the submissions of the provincial government and against the arguments of the Dominion government on every point.

Going outside the terms of the reference, Chief Justice Duff made an opinion on the Social Credit Act, which he found to be outside the legal jurisdiction of the province.

He ruled that Lieutenant-Governors had power to reserve their assent from provincial legislation, subject only to any instructions from the Governor-General.

## Social Credit

By O. L. Toftner

I have been reading, with a good deal of interest, the discussion in The Northern Tribune led by Mr. W. C. Pratt on the subject of Social Credit. Perhaps there are enough already taking part in the discussion and that more would be too many, but if the editor will kindly allow the space I should like to join the jolly circle.

It seems that Mr. Pratt, like the writer of this, is more or less in doubt about just what is meant by Social Credit. Some of his critics say that it is so simple that a child should be able to understand it. Well, here is one "child," near three score and ten, who, like Mr. Pratt, cannot get the hang of it. Those taking issue with Mr. Pratt say in explanation "that we must monetize the provincial credit; that Alberta must gain control of her own credit, etc." All of which leaves me about as wise as I was before. The vagueness of their program makes me believe that the founders of Social Credit have followed the advice of a famous cynic, who once said: "If you would make your doctrine immortal, make it incomprehensible, for then no one can prove that it is wrong."

For the purpose of this discussion the Social Credit theory advanced by the Hon. Wm. Aberhart, I presume, is the one to be considered. I don't know if this is exactly the same as the Douglas theory or not, and I doubt if they do. But I do know what the pre-election promises were, and now let us consider some of them, and see how they have been fulfilled.

He promised immediate tax reduction (see Social Credit Manual, question and answer No. 33, on page 53). Immediately after he became Premier he increased some of the then existing taxes and invented many new ones, as everyone knows. I have never seen or heard of any reductions.

He promised lower prices of commodities to consumers (see Social Credit Manual, question and answer No. 15 on page 41). What has happened? What has happened to farm products? Every bona fide farmer knows prices have been increased, and I am mentioning only one of the many.

He promised a monthly basic dividend of \$25 per month, free, gratis and for nothing, to every bona fide citizen, male or female, to their children 16 or over and under \$5 per month, to those from 10 to 16 years of age \$10 per month, to 10-year-olds \$15 per month, and those that were 20 years old \$20 per month (see Social Credit Manual, pages 19 to 21). He promised that these payments would commence not later than 18 months after the inauguration of the Social Credit government (see Social Credit Manual, question and answer No. 55, on page 62). Well, what has he done towards the fulfillment of this promise now, 30 months after? What prospects are there that he ever intends to do anything about it? When pressed for an answer to this, he pleads lack of support. Is it not a fact that no other party has followed the same as the Douglas theory or not, and I doubt if they do. But I do know what the pre-election promises were, and now let us consider some of them, and see how they have been fulfilled.

When pressed for an answer to this, he pleads lack of support. Is it not a fact that no other party has followed the same as the Douglas theory or not, and I doubt if they do. But I do know what the pre-election promises were, and now let us consider some of them, and see how they have been fulfilled.

He promised a monthly basic dividend of \$25 per month, free, gratis and for nothing, to every bona fide citizen, male or female, to their children 16 or over and under \$5 per month, to those from 10 to 16 years of age \$10 per month, to 10-year-olds \$15 per month, and those that were 20 years old \$20 per month (see Social Credit Manual, pages 19 to 21). He promised that these payments would commence not later than 18 months after the inauguration of the Social Credit government (see Social Credit Manual, question and answer No. 55, on page 62). ## CRYSTAL CREEK

WELL-FILLED HALL AT CONCERT

CRYSTAL CREEK, Mar. 9.—The children of the Crystal Creek and Somme schools met to present a concert in the Crystal Creek Community Hall on Friday, February 25. The different items on the program were as follows:

1. "Kindness Counts," opening song by the children of the Crystal Creek School.

2. "Red Sails in the Sunset," sung by Rhoda Scott, Pearlina Binks, and Eunice Whalen.

3. "A Little Old Lady," a play by the children of Crystal Creek School.

4. "Pete Knight's Last Ride," a song by four members of Somme School, accompanied on the guitar by Violet Olson.

5. "A Good Trade," a dialogue by Jim and Grant Boyd.

6. "Little Old Lady," played by the rhythm band of Crystal Creek School.

7. "Jack and the Beanstalk," a dramatization by the children of Somme School.

8. An accordion solo by Andrew Salmark.

9. A tap dance number by Shirley Wheeler and Ruth Swanson of Twilight School.

10. "Red River Valley," a violin duet by Andrew Salmark and Howard Withers, accompanied by Pearlina Binks.

11. Dr. Drop and Detective Snop, a Negro dialogue by Howard Withers and Richard Withers as interlocutor.

12. "Camptown Races," sung by the Crystal Creek School.

13. "Hicks from St. Nick's," a rube talking act by two boys of Somme School.

14. "Love's Old Sweet Song," sung by Marjorie and Mavis Boyd.

15. The Irish Lull, presented by the children of Crystal Creek School.

16. "Carry Me Back to Old Virginia," closing number sung by the children of Crystal Creek School.

Howard Withers and Andrew Salmark acted as end men for the program, and Richard Withers as interlocutor.

Accompanying numbers were played by Mrs. E. Bates, Mrs. H. Boyd, Violet Olson, Walter Lemke and Art Swanson.

The concert was followed by a lively dance, with Billie Boyd as floor manager, and Art Swanson's orchestra providing the music. Mrs. McFetridge was in charge of the lunch.

The hall was well filled and presented a scene of enjoyment. Many thanks to all of you who helped.

There will be a whist drive and dance in the Crystal Creek Hall on Friday, March 11.

The members of the cast of "Celtic Song" will present their play, a three-act comedy, in the Flying Shot Hall on Friday, March 11. There will be a true bracket race to show bare knuckle boxing. Admission will be 35 cents for adults and 15 cents for children. Lunch will be sold at the dance for 15 cents.

Word was received from Mr. A. Mattson, who left last week for Winnipeg, that he had arrived safely and that his sister was doing as well as could be expected.

Mr. and Mrs. Douglas Clarkson left last Wednesday for DeBolt, where they plan on visiting with Mrs. Clarkson's parents for a short while.

Holders of lucky tickets at the dance last Friday were Mr. A. Paddy, who won the angel food cake, and Mr. Fred Boyd, who won the box of chocolates.

## BEEN AND HEARD

Alex Fleming having trouble with his shopping.

Mrs. McFetridge looking for wool.

Alfred Wales complaining about the dust.

Mrs. Clarkson losing an early crop of lettuce.

Mr. Fred Boyd being very popular with some of the girls after winning the chocolate.

Mrs. Binks pulling No. 1 ticket.

Mr. Paddy looking pleased.

Mr. Biefer wishing the cars would run again.

## CROOKED CREEK

CROOKED CREEK, Mar. 9.—Jasper Chapman arrived home from Grande Prairie Municipal Hospital on Saturday.

Logging seems to be at a standstill in this district on account of the lack of snow.

Miss Esther Lowen, formerly of Crooked Creek became the bride of Mr. Dale Edwards last week. They are now residing at Sturgeon Heights.

Miss Pon and Miss Shewts spent the week-end in Grande Prairie.

The last two Social Credit meetings held here were very poorly attended. Everybody seems too busy to attend these meetings, so they are being postponed until a later date.

Elmer Bailey was very unfortunate in having to spend a night in the jail there, but the night being too cold he did not suffer any serious effect from exposure.

Mr. P. S. Dwyer has moved back to his little old log shack on the banks of Crooked Creek, after spending the last four months in the timber.

## PNEUMOTHORAX

When tuberculosis is diagnosed, what is the patient to do? The answer to this question is: REST. It is what the doctor will tell him to do, because everyone will agree that in the case of tuberculosis the most important point is rest, physical and mental.

In tuberculosis the lung is diseased, and through rest the activity of the lung is diminished and so the healing forces are given a better chance to arrest the disease process, halt the progress of the disease, and bring about a cure.

At birth, air first enters the lungs when breathing begins. This air, which is at atmospheric pressure, causes the lungs to expand, filling the chest cavity. Owing to their elasticity, the lungs tend to contract against the atmospheric pressure, and this creates a slight negative pressure or suction in the chest cavity outside of the lung itself.

Between the lung and the chest wall there is the pleura, a smooth covering of two layers, the larger one of which covers the lung, and the other the inner side of the chest wall. In the act of breathing these two coverings glide the one over the other.

Within recent years artificial pneumothorax has been used to place a diseased lung at complete rest in order to increase the chance of healing. This is accomplished by introducing air into the pleural cavity, the space between the two coverings or layers of pleura. The introduction of air into the pleural cavity reduces the negative pressure that is normal in that cavity and so equalizes the pressure that exists on the lungs from within and without. The result is that the lung collapses and is at rest.

Not all patients require pneumothorax, nor are all cases suitable for such treatment. For those cases which are selected after proper examinations and studies there is no doubt that this form of treatment has revolutionized the outlook. The treatment must be maintained by injections of air for months and possibly years. This does not mean that any less care is to be given as regards the other

## CANADA'S CHARTERED BANKS VALUE YOUR GOODWILL

WHETHER you deal with a bank or whether you don't, some time soon—say the very next time you are passing the bank's door—why not drop in and get acquainted? You're sure of a welcome, because the bank manager wants to know you. So find out for yourself what kind of fellow he is. And before you leave, take a good look at his staff.

The head offices are manned and managed by just that sort of man! Every general manager in Canada started in the banking business as a junior in some small branch, and rose from the ranks.

This is your introduction to a series of clabs in the course of which you will be surprised at how little of mystery and how much of service there is in the business of banking in Canada.

Canada's chartered banks want your goodwill. Use your bank! Get to know the manager if you know him already, he'd like to know you better.

It is only by goodwill that banks make a living—and bankers are your fellow-citizens, the same sort of people as you are.

Of course bankers have heard all the old, threadbare jokes about the banker's glass eye, his delight in humiliating worthy souls who ask for loans—even that grand old chestnut about lending the umbrella when the sun is shining and taking it back when it rains.

So if you think you have a new joke, drop in and spring it on your local bank manager—he'll appreciate it. And if it turns out he's heard it before, he'll still have his sense of humour handy enough to get a chuckle, should you chance to tell him that the banks are being held responsible for the latest storms, or for the loss of the hockey game, or for his own neglect of common prosperity from just around the corner.

Which should prove to you that your banker is, after all, a very human person. He likes to do the community most good. And they want people to like them.

Banks want to be helpful. They realize that they succeed only as the people of the community succeed. Enlightened self-interest? Well yes—but not altogether.

Your local manager will tell you that banks are not stiff-necked; that they do not enjoy refusing loans.

They'd be foolish if they did, for goodwill is the whole core and pith and substance of successful banking.

Intelligent people like plain talk. So in the talks to follow we shall be frank in giving you the facts about banks, bank ownership, bank operations, cash, currency, loans and interest. We would like you to read them all.

As we've said before, banks want and need your goodwill. No bank can get along without it. Telling the facts is probably the best method of winning it.

Intelligent people like plain talk. So in the talks to follow we shall be frank in giving you the facts about banks, bank ownership, bank operations, cash, currency, loans and interest. We would like you to read them all.

## THE CHARTERED BANKS OF CANADA

Your local branch bank manager will be glad to talk banking with you. He will be glad to answer your questions, from the standpoint of his own experience. The next article in this series will appear in this newspaper. Watch for it.

points of treatment. It does mean, however, that much can be done for cases that were considered hopeless. It speeds up recovery in many cases, lessens the chance of spread to the other lung, reduces sputum and minimizes the chance of spreading the disease, and, altogether, represents a

great advance in the treatment of a disease which is still one of the most common and persistent enemies of mankind.

Questions concerning health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by letter.

## The SNAPSHOT GUILD

"BACKGROUND" TROUBLE

The sky makes an excellent background for pictures of people. But don't tilt the camera too sharply!

In your snapshots of people, do you ever run into "background" trouble? That is, do the backgrounds in your pictures tend to attract more attention than the persons in them?

This is the case in a great many amateur snapshots, and the reason is simple. If any photograph is taken with the camera tilted, the person or persons they are picturing, and forget that there is a background. But the camera doesn't forget—it obediently takes in everything at which it is pointed.

The background is just as important as the person in a picture, and should receive just as much attention. Particularly does one need to take care that the background is not intrusive, and does not "steal the show" from the person pictured.

In the summer time, the "worst offender" in backgrounds is spotty foliage, such as trees or foliage with light shining between the leaves. Backgrounds of this sort tend to show up as strong black with spots of strong white, and prove quite distracting.

In the winter time, when many pictures are made indoors, wallpaper with a pronounced pattern spoils many pictures that otherwise would be excellent. Too, in winter work outdoors, many amateurs overlook trees behind the subject, and obtain pictures which appear to show bare branches growing out of a person's head.

The best backgrounds are neutral. They may range from almost white for a brightly-lit cheery effect, to almost black for an effect of dignity or richness; but they should almost never have a vigorous pattern or too definite a character of their own.

Outdoor, one of the best simple backgrounds is the sky. To obtain a sky background, it is necessary to use the camera fairly

### ATHLETIC ASSOCIATION HOLDS ANNUAL MEETING

Officers Elected—Opinion New Skating Rink Should Be Built Immediately; South of Curling Rink

The annual meeting of the Sexsmith Athletic Association was held at the Curling Rink on Thursday, March 3. After the minutes of the last meeting and the financial statement for the year were read and accepted, the election of officers for the coming year took place, and the following were elected:

President—Harold McFarland.  
Vice-President—John N. Olson.  
Sec.—Treas.—Rev. W. T. R. Deive.  
Executive—Messrs. Geo. Cameron, Norman Umblett, Reg. Little, Fred McNaughton and S. W. Smith.  
It was the opinion of the meeting that the new skating rink should be built immediately south of the curling rink. All lumber firms are asked to send in tenders for lumber, approximately 20000 ft. m. delivered at Sexsmith.  
Up to the present \$280.50 has been subscribed for the purchase of lumber. Quite a number of those present paid their membership fee of 50 cents for the ensuing year.

### YOUNG PEOPLES SOCIETY CONCERT WELL ATTENDED

The play and concert staged by the Young Peoples Society at the Grand Theatre on Wednesday of last week was well attended, and those who attended were well pleased.  
Two numbers rendered by Mr. and Mrs. Emil Swensen, "Poor Butterfly," from the opera by Puccini, "Butterfly," and "Moonlight and Roses," the latter in costume, were well rendered.  
Butterfly from his two tag dancing numbers went over big.

Jonas Webster, one of our new entertainers, acted comically in variety to the show in his two blackface stunts, and his dog, played by "Sport" Dunst, did his part well, although no doubt he does not know what it was all about up to this day.  
Mr. Deive and Mr. Nelson were the projectionists and showed a "Raccoon Mouse" and "Tommy in Canada."

The one-act play, "It Can't Be Done," with Stanley Foster as Jack, Betty Jones as Joan, Mrs. Jones as Jill, and Johnny Anderson as Darby, kept the audience laughing from start to finish. What Jack and Joan did not know about a farm would tell several versions. The same could be said about what Jill and Darby did not know about a cow. Taking it all in all, it was a well-balanced performance.

By the way, the same entertainment will be shown at Ladoc on Friday night, March 11, at 8:30, and the inhabitants of that fair city would be well advised to take it in.  
Besides the performers, thanks are due to Mrs. J. Dunst, co-director with Mr. Webster, Johnny Dunst as stage manager, Vic Nelson as electrician, H. M. McMillan for the loan of the electrical fixtures, and E. Kirwin, pianist.

### THIS WEEK AT THE GRAND

This week's offering at the Grand Theatre, Friday and Saturday, will be "The Gay Desperado" with Nino Martini, Ida Lupino and Leo Carrillo. This will take the place of "Banjo on My Knee," which will not be shown this week after next.  
Incidentally, "The Gay Desperado" will be in the nature of a benefit for the Women's Institute of Sexsmith, and as the funds will be put to a worthy cause, warrants your support. There will be a dance after the show.

### DR. GANEY ARRIVES HOME

Dr. L. R. Ganey arrived home on Saturday's train, having been away for about five weeks. During his trip the doctor was at the Mayo Hospital at Rochester, Minn.; took a post graduate course at Chicago, and visited a few days at Toronto.  
Dr. Ganey, who took Dr. Ganey's place during his absence, left on Monday's train for Ladoc.

### IMPORTANT COMING EVENTS

Keep these coming events posted in your list, or better still on your mirror:  
The St. Patrick's Dance, sponsored by the Sexsmith Athletic Association, on March 17. The boys are going to considerable trouble to make this an outstanding success. Do not overlook the dollar bill that will be handed out to someone each and every hour during the dance. One dollar covers all expenses per couple, including lunch, and if you get this bonus dollar, and it is just as liable to be as you as anybody else, you will stand as high with your best girl as no cost to yourself. What better could you ask?  
On Saturday afternoon, March 19, the W. A. of the Emmanuel Church is putting on a sale of home cooking.  
On Friday, April 1, there will be a dance in aid of the Emmanuel Church Association's funds. More about this later.

### SEXSMITH LOCAL PARS

Mr. James Foote, who has been in the hospital at Edmonton, undergoing medical treatment, arrived home on Thursday's train, and is looking pretty fit. His kids had better keep your ears open for that curly head.  
Mrs. Esauvina of Little Prairie, B.C., who is visiting Mr. J. A. Weicker, expects to return home on Thursday's train.

Keep in mind the auction sale at the Fitzgibbon Sales Yard in Sexsmith on Friday, March 18. There will be a nice bunch of horses offered for sale. See advertisement in this issue.

### East of the Smoky

(By W. G. Given)

#### REGULAR MONTHLY MEETING OF LEGION HALL SATURDAY

DE BOLT, Mar. 7.—The usual monthly meeting of the East of the Smoky Branch of the British Empire Service League, No. 89, was held in the club-house, Perkins in village. The secretary, W. G. Given, reported the usual time of silence in honor of our departed comrades.  
The secretary's previous meeting was read by the secretary-treasurer, Dr. Nelson. It was moved and seconded that the minutes be adopted as read. Motion carried.

The secretary laid a volume of correspondence from the provincial and Dominion secretaries, which was given careful consideration and filed for our future guidance.

The by-law committee handed in their report, stating that the laws laid down in the provincial laws contained all the laws necessary for the good government of our legion. However, the committee did recommend that certain matters should receive the attention of the legion, and the following subjects should be covered with insurance.

These and other matters were left in the hands of the committees. One ex-member was reinstated. More will follow next night.

Mr. H. E. DeBolt was thanked for his grant of land on which the hall is now located.

The next meeting will be held on the first Saturday in April and it should remain as it is 21 years since our Vimy battle, and incidentally the "Salute to Valor" will be shown in Grande Prairie Capital Theatre.

The 7th, 8th, 9th, under the auspices of the Grande Prairie branch. This picture has made a big hit wherever shown and no doubt will draw toll house while shown in Grande Prairie.

The Legion concluded its meeting with a cup of coffee and a cordial invitation is extended to all return men to keep present meetings in mind—first Saturday in the month.

God Save the King.

The boys are meeting in the Community Hall every Saturday night for boxing, wrestling and it's their intention to organize a football club and other outdoor sports. The girls will have a basket ball club. All these things should be encouraged and a special invitation to all the school boys to attend the meetings on Saturday nights and help to make the necessary arrangements. Mr. E. R. Turner has kindly consented to look after the boys and assist them in their work, and a good time is assured.

### EDSON TRAIL SCHOOL DOINGS

The Edson Trail School is determined to organize an athletic club and are going ahead with plans to put on a concert and dance on the evening of March 11th in the DeBolt community hall. They have got their posters out and are now busy on their programme.

Admission will be by ticket and are being sold for 25c. It is hoped that the public will help the young folk.

## SNAPSHOT GUILD

### "CANDID" BABY PICTURES

Have you ever thought of taking a series of "candid" or "off-guard" pictures of the baby in his lighter or more active moments, and saving them in a special album entitled "We Knew Him When?"

Any parent who owns a camera can build up a splendid collection of pictures such as this, and if your baby is like most babies, the same pose or expression will never pop up twice.

A small baby is probably the world's ideal subject for "off-guard" pictures, because he is altogether lacking in camera consciousness. Once he learns that you won't let him chew the corners of the interesting black gadget, or pull the shiny piece of glass out of the front, he dismisses the matter and proceeds to more important things. Thereafter, you can shoot away at your heart's content.

You don't need a high-speed miniature camera to take "candid" pictures of this sort. A speedy lens is helpful, because then you can use higher shutter speeds and catch the youngster when he is trying his skill at somersaults or endeavoring to

shoot his rattle to pieces and see what makes it work. But a box camera will do the work pretty well if you are careful to watch for momentary pauses in the action. Even the most industrious baby comes to a brief halt now and then.

During the winter months, most of your "off-guard" baby pictures will be taken indoors, and many of them at night. Amateur photo bulbs snap enough light for the little snapshots, and your film dealer will have booklets or leaflets showing how to arrange them. With lights arranged properly, the night snaps are as simple as those outdoors in sunshine.

In shooting the off-guard baby pictures, watch for expressive gestures and fleeting expressions, and train yourself to catch them instantly. Snap tears as well as smiles, for they will help you remember your baby as he is now. And, whenever you put a picture in your special album, write under it the day and year when it was taken. That will help make the book a day-by-day biography which grows in value as the years roll by.

### FLYING SHOT ITEMS

W.S.C. HOLD MONTHLY MEETING FLYING SHOT, Mar. 8.—The Women's Social Club met at the school-house on Wednesday afternoon. The roll call was answered by an Irish jig, which brought forth a round of applause. There were 11 members present. We were glad to welcome Mrs. Bill Lucky to our club over a few knowers she went in dancing.

After the financial statement was given we were glad to know that through the holding of a couple of what drives our funds were somewhat replenished.

Our next what drive will be on Friday, March 18, at the school-house. It was decided to answer the roll call next month with five cents and a proverb. The five cents contribution will go towards flowers for the hospital at Easter.

After the business Mrs. Cameron and Mrs. Bean entertained the club.

Mrs. Howes was voted to be the entertainer next month, which meeting will be at the school-house, April 6, at 8:30 p.m.

### "CYCLOPE SALLY" HERE FRIDAY

The Crystal Creek people are putting on their play, called "Cyclope SALLY" at the school-house, Friday evening, March 11. We trust there will be a good turnout to see this fine play.

There was a good turn-out to church last Sunday. Our next service will be on Sunday, March 20. A very cordial welcome is extended.

There was a good crowd at the dance last Friday and a good time was voted by all.

## FARMERS ON PRAIRIES STRIVE TO CONSERVE MOISTURE OF HEAVIEST SNOWFALL

In an effort to conserve spring moisture by preventing "blow-off," many Saskatchewan farmers this winter are plowing the deep snow on their fields into furrows. This photograph shows Joe Yovchik, Regina district farmer, with a home-made plow attachment on his tractor, plowing furrows in the snow so that the high winds which whip across the plains will blow the snow into the furrows rather than off the land. When the furrows are filled he plows them over again. Old inhabitants of the province claim this winter's snowfalls have been the heaviest in history.

## Real Irish Spirit To Be Seen In Concert St. Patrick's Day

St. Joseph's Dramatic Club will present "The House of Patrick Casey" on March 17, in the old Capitol Theatre.

Someone has said "Everybody is Irish on St. Patrick's Day" and it is true, because everybody catches up the spirit, a spirit of friendliness, genuine fellowship, and good humor. St. Patrick's Day has been celebrated in every land for centuries. We pay tribute to the Saint who was an apostle and a patriot.

St. Patrick's Day is rich in memories and traditions. Here, in America, Irish daughters and sons cherish "what is dear and sweet" about the Emerald Isle. In the play, Pat Casey wears eloquent, "I am an American, and a good one, too; but I'm all the better for remembering where I came from—because a man who married is no reason for forgetting his mother; is it?"

It was Ireland's darkest hour when her children embarked on ships to seek a home in the land of strangers. They found a welcome, and in return became an asset to America. Good has come of it—you find Irishmen in every walk in life—and there are many the good Irish policeman, too," says Pat Casey.

So join the parade to the old Capitol Theatre on March 17. "The top of the morning to you." We'll be there to witness the acts of "The House of Patrick Casey."

## Girls Here Will Fondle Dolls From Distant Ceylon

The following is an article from the magazine of the Girls' Friendly Society of Colombo, Ceylon, describing the origin of the Indian dolls which will be on exhibition and for sale at the tea to be held in the Speke Hall by Christ Church W. A. on Saturday, March 12:

"What a thought!"  
"It took us sometime to decide what sort of dolls would fill the role of a representative gift to our sisters in the New Hemisphere. Meetings followed meetings as we could have arrived at our final decision."

"With nimble fingers supported with active brains our members turned out a collection of some of the most popular figures of the East in everyday walk of life in Ceylon."

"To get the idea of making up our dolls, I did a short tour of the country to obtain inspiration. I engaged a rickshaw drawn by a Rikshaw Cooly, who took me to Ceylon's premier hotel, the Galle Face, where I met a cosmopolitan gathering of Tamils, a Japanese, a Parsee and an Indian Lady having tea with smart Anglo-Indians. Continuing my trip through another locality, I observed a Sinhalese Man having an altercation with an Afghan, and a few minutes later, whilst passing the residential quarters of the city, I noticed a 'Sinhalese Ayah' enjoying a few minutes respite by investing her little earnings in purchasing a chew of betel from an Indian Woman Vendor. On my drive home I dropped in to see a Tamil Lady, who had as visitors all Borah and a Kandyan Lady. Having completed my round, we settled down to work."

"This being our first effort, our turn-out could be checked at much of a success, but the idea we intended to convey is quite apparent."

"The artist's palette of Miss Van Dord, one of our vice-presidents, were displayed in the difficult task of depicting the face expression of the various races. We owe her our thanks."

"These dolls are intended for the Sale of World's Fair. Christ Church Grande Prairie, Alberta, where our Year comes from. Proceeds are to be contributed to the funds of the missionary work in Canada."

"Our thanks are extended to those who so readily responded to our call for passages for the dolls to Canada. We all wish our little Goodwill Missionaries to have a bon voyage and a happy future."

## THE WORLD OF WHEAT

By H. G. L. Strange  
Director "Crop Testing Plan."

"The United States Government has decided to release 100 million dollars' worth of gold every three months from the vaults where it has been stored" so as to permit the yellow metal to expand the credit base of the United States.

This is important news indeed, for it means that the vast board of gold which has been accumulating in the United States since 1933 will, at least, be permitted to make its weight felt in raising commodity prices.

As compared with 1913-14, the currencies of the United States, Canada and Great Britain have been inflated by 60%, and since 1932 the World's production of gold has been about 40% greater each year than previously.

These factors, separately and together, tend greatly to increase the price of all commodities for gold and money are the yardsticks which measure the price. It means, therefore, that as soon as the existing Governmental restraints on the full use of gold and credit are removed, then all prices, and so the cost of living and production, will tend to rise by 60% or more as compared with pre-war prices.

Commodity prices so far have only risen by 25%, and cost of living by 30%, but World wheat at Liverpool and Chicago wheat prices, are still well above pre-war levels.

Following factors have tended to raise prices—Russia buys Australian wheat—1938 winter wheat acreage less than a year ago—Argentine Government states 40% of seeded corn total low—South American Government authorized importation of wheat and flour—Mexico authorized importation of corn free of all duty.

Following factors have tended to lower prices—Further beneficial wheat acreage less than a year ago—Argentine Government states 40% of seeded corn total low—South American Government authorized importation of wheat and flour—Mexico authorized importation of corn free of all duty.

## UNITED STATES NEVER REALLY GOT OUT OF THE SLUMP, SAYS JIM RYAN

That the United States never really got out of the slump, or the depression, is the report brought back by Jim Ryan, editor of the Grande Prairie district, who returned recently from a three months' visit with relatives in the United States. Ryan, of Chicago, St. Louis, Omaha, Nebraska, and Dubuque, Iowa, were among the places he visited.

In conversation with The Tribune reporter Mr. Ryan gave it as his opinion that opportunities in the Peace River are very much better for the average man than in any place which he had seen on his travels.

**Fine Banquet Is Given By Grande Prairie B. of Trade**

The main dining room of the Grande Prairie Hotel was filled to capacity Wednesday evening, March 9, at a splendid banquet. The first of a series to be put on by the Grande Prairie Board of Trade. High satisfaction at the success of the first of the encouraged members of the Board of Trade to continue the monthly evening banquets rather than the luncheon gatherings first planned. It was thought a much better attendance would be assured.

Following the singing of "O Canada" and the blessing asked by Father Conway, every seat was filled at the sumptuous dinner.

Present in the hall were after-dinner pleasantries in a humorous vein and a cut-in on the dining-room radio program of "The Evening News" on P. J. Tooley's reading of the minutes of two meetings.

The organization of the Board of Trade was discussed and returned with a cut-in on the dining-room radio program of "The Evening News" on P. J. Tooley's reading of the minutes of two meetings.

## Talk On Pioneers Thrills Listeners At W. I. Meeting

W. D. Albright Tells Enthralling Story Of Those Who Pioneered This Peace River Country. He Tells Of The Struggle To Conquer By Courage And Faith.

"The pioneers of the Peace! What a splendid heritage of bravery and courage they have given us. For, like the armies of Caesar, they came, they saw, they conquered," and their epic struggle has been recently unrecorded!" Listening to Mr. Albright, superintendent of Beaver Lodge Experimental Substation, on Thursday evening last week, at the home of Mrs. A. R. Hillman, members of the W.I. were thrilled with incidents and pictures of the days of the "trail" before the coming of the railway.

And what trails! Men, women and children, accustomed to the vicissitudes of well-to-do homes in long-settled districts, were suddenly thrust into rough river boats with no provision for passengers, stayed overnight at almost impossible stopping places, and during the day struggled over trails that were veritable quagmires, paying well for the privilege of following the wagon—when "putting a shoulder to the wheel" was taken literally.

It was over just such a trail Mr. Albright and his wife and baby daughter came into the country in 1914. When they finally reached the open lands of Beaver Lodge district there were many years of hard-ship before reluctant success came. In his own inimitable manner, Mr. Albright told of many pot-holes through a particularly cold winter, hauling water long distances daily, wearing clothes that were water-soaked and soggy, while they wrestled with the blizzards of providing food and shelter for a new band. But they came through.
